-A Sale as amazing as it is startling! Made possible through a special purchase! When you own one of these big, powerful, highly selective sets the world's finest radio broadcasting is at your instant command-music, opera, sports, dancing, education, lectures, financial news, markets, church services, etc. Come when the store opens Friday at 9 a.m. if you wish to secure this Marconi Radio at less than Half Price.

This remarkable Marconi 8 tube set is considered the superheterodyne at its very best. Mellow tone quality, capacity for developing or diminishing volume and extreme selectivity by means of the Vernice adjusting dials, easy, accurate, sensitive and sharp to a degree which can only be described as miraculous. The receiver is, encared in a splendid setting—a beautiful walunt cabinet, size 38 by 15½ inches, of McLagan construction, designed to please the most exacting taste.

—The Aerial is enclosed and battery space is provided inside the cabinet. The Marconi has a builtin loop antenna, and is therefore, a self-contained unit. (For best results, however, we recommend
a short outside aerial.) There are four control knobs on the panel of the Marconi. Two for tuning—
the other two for control of filament and volume of sound. If you are a newcomer to radio, you
could not make a more auspicious acquaintance, for here is radio receiving at its zenith. Now is
your opportunity to step into the front ranks of the most ardent radio fans.
